

# Lexile Text Analyzer

**LEXILE RANGE:** The Lexile range generated is not a certified Lexile range and should only be considered an estimated Lexile range.

**VOCABULARY:** The Analyzer selects up to 10 words from the text that have been identified as having significant consequence or relevance and can be used to help inform instruction.

Educators should look for reading materials with a comprehension “sweet spot” of 100L below to 50L above their students reported Lexile measurement. Materials in this range provide students with an ideal level of challenge while maintaining comprehension.
